TRAINING

SAFe®
for Architects

Architecting for continuous value flow with
SAFe® Architect (ARCH) 6.0

ARCH
SAFe® 6

FACE-TO-FACE	REMOTE
3 days	5 half-days

Operational and evaluable goals

- Enable continuous value flow by aligning technical strategy with business goals, communicating that strategy to development teams, and applying Agile architecture practices.
- Improve collaboration and alignment in a SAFe Lean-Agile enterprise when they become a SAFe® Architect.
- Engage across the organization as effective leaders and change agents who collaboratively deliver architectural solutions.
- Explore the roles, responsibilities, and mindset of Agile Architects.
- Appreciate how to align architecture with business value and drive continuous flow to large systems of systems while supporting SAFe execution.

ACCESSIBILITY

If you have a disability, our Disability referent is available to discuss the necessary accommodations for the smooth running of your training.

Please explain your needs to him by email:

formation@digitaltango.ca

Topics covered

SAFe® for Architects

- Exemplifying Lean-Agile architecture
- Architecting for DevOps and Release on Demand
- Aligning architecture with business value
- Developing Solution Vision, Solution Intent, and Roadmaps
- Preparing the architecture for planning interval (PI) planning
- Coordinating architecture throughout PI Planning
- Supporting Continuous Delivery during PI execution
- Supporting new Strategic Themes and Value Streams
- Leading as an architect during a Lean-Agile transformation

Prerequisites

No prerequisite

Those taking this course should be familiar with Agile principles and practices and should have completed at least one SAFe® course before taking this one.

Certification

- Exam format : Multiple choice questionnaire (MCQ)
- Method: Via browser
- Duration: 1.5 hours (90 min.)
- Number of questions : 45
- Score to get : 32/45 (71%)
- Language: Exam in English

At the end of the training, candidates will receive a link to the SAFe Studio platform and will be able to take the exam. The first test is included in the training within 30 days. Each new test will then cost $50, payable directly on the SAFe Studio platform. Following successful completion of the exam, the candidate receives their certification which is valid for 1 year. This must be renewed annually and costs $295/year or through the SAFe enterprise subscription "SAFe Enterprise Subscription (SES)". **More informations on the Scaled Agile website : SAFe® Architect 6.0 exam details**

At the end of the exam, you receive your results immediately.
